

Should feel like you are navigating folders and then viewing items in folders

1. Start at website
2. Login using 'confirmed' email
3. Top View shows available video folders (1 per Camera/day)
4. Navigation icons are "Back", "Refresh", "Prior Folder" "Next Folder"
5. If folder shows "Buy Me" you need to purchase access (See HELP REGISTER)
6. If folder shows "Enter" Icon, click to browse into the folder
7. Typically you would see more folders, labeled by name
8. Navigate into folder to see and then play the video files
9. For now, saving the video to your system can only be done on a Desktop
10. Will add a "Save Video" link in comment View

See next page to Add a comment to a video

1. Select ViewEdit Comment to add a comment

2. Default is to "Comment" current folder

3. To "Comment" a video Item, click on the cell with red Item name

4. Shows "Comment View" which displays the Item (on phones, not PC's for some reason)

5. Add you comment, and select postComment

6. After a Refresh, the Comment shows with the Item (Along with your name, Date)
